TELEPHONE CALL WITH EXAMINER

I spoke to examiner Ivan Carpio today. I pointed out that we had filed a revocation and new power of attorney on July 16, 2004 and the fact that this document was listed on the PTO webpage. However, the document is not being recognized and correspondence is still being sent to the former attorney for this matter.

The examiner indicated that he would speak to his supervisor regarding correcting this error, and would then call me back to confirm same. I will send an addition memo to file to confirm that this matter has been resolved when I am advised of such by the examiner.
